

Curtain Raiser for ITME 2022 - India's largest textile machinery exhibition

By S. Hari Shankar, Chairman, India ITME Society

India ITME Society welcomes all to the biggest mega-event in the textile engineering sector in Noida from 8th to 13th December 2022. We assure you the India ITME 2022 event would be the transformation from masks on our faces to Smiles on our faces, from virtual backgrounds to the decked-up conference room bringing 22 chapters to provide end-to-end complete solutions, competitive pricing, and the latest technology from fiber to fashion under one large umbrella of India ITME 2022.

Although the most awaited meet of textile technology providers and textiles producers got extended by 2 years, it is impeccable timing that has fallen in our laps with this year being the most embellished year for India as we celebrate the 75th Azadi ka Amrit Mahotsav. And nonetheless, society ensured to always keep the technology industry connected to the textile customers & value chain through virtual events with the sheer motive of aiding our exhibitors with the opportunity of business year around.

The virtual expo and series of interactive sessions planned by the society in the preceding 2 years have been beneficial for fellow exhibitors and visitors.

The Global Textile Machinery market size is forecasted to reach \$33.2 billion by 2026, growing at a CAGR of 6.3% from 2021 to 2026. India ITME 2022 event will also act as a catalyst in India's vision of creating 100 Indian textile machinery champions and taking a leap of growth from its current US\$ 2.5 billion textile machine industry growing at 5%.

The event in line with the government vision will act as icing on the cake by providing a platform for the beginning of collaborations formation of new mergers and tie-ups in the textile engineering sectors through the provision of business pavilions and common ground.

India is known as the land of textiles, Textiles are in the DNA of India, and the business in textiles is a natural phenomenon for Indian entrepreneurs. India has been at the no. 2 position in the globe for a very long time. As the viral trend goes, India is all capable to be the next '+' opportunity for the global markets.

Indian Textiles and garments industry is expected to reach \$190 bn by 2025-26 from \$103.4 bn in 2020-21. The size of India's textile market stood at US\$ 223 billion in 2021, growing at a CAGR of 10.23% over 2016.

India's exports of textiles and apparel are expected to grow to \$65 bn by 2025-26, growing at a CAGR of 11%. There is an abundance of opportunities in India for textiles & textile engineering sector.

The sector's growth is further escalated by the government mission of US \$ 100 Billion textiles exports in the next 5 years. With the introduction of various policies and interventions like PLI the business houses are fueled to upscale their investments and expand across the value chain. India is also the 6th largest

producer of Technical Textiles with a 6% Global Share.

The technical textiles growth in India has been escalating in the last few years with a 15-20% growth rate. The self-need for technical textiles in India being a developing country demanding industrial textiles, packing textiles, performance textiles in infrastructure improvisation, rising sports awareness,

evolved health care, construction & home furnishing along with geo-textiles has boosted the growth further. This escalated manufacturing need has led to the demand for bringing on board state-of-the-art textile modern machinery and accessories. The timing of India ITME 2022 is the most perfect gateway for the technology providers to meet the hungry for growth investors in India.

India ITME Society which started as a mere channel for bringing textile engineering and technology trade shows to India has today grown to be the one-stop solution for all textile engineering and technology industries. India ITME Society today plays a pivotal role in strengthening the domestic as well as international Textile Industry by facilitating the exchange of knowledge and technology transfer and encouraging Foreign Direct Investments & Joint Ventures, etc.

The journey of society is one of inspiration beginning from enhancing the exhibitor's count to increasing the footfall of visitor's edition after edition, the society has ensured to be the trade show of substance. It has not only ensured to bring in

India ITME & EEPC sign MoU for hosting Reverse Buyer Seller Meet during India ITME Exhibition

Ms. Seema Srivastava, Executive Director, India ITME Society and Mr. Adhip Mitra, Additional Executive Director and Secretary, EEPC signing RBSM Agreement in New Delhi

"We have been consistently inspiring the global manmade fiber industry with disruptive, sustainable innovations for over 100 years."

Georg Stausberg
CEO, Oerlikon Polymer Processing Solutions

Innovation starts with Creativity

As a pioneer of the manmade fiber industry founded in 1922, always oriented on the guiding stars of innovation and technology leadership within a global market environment – this is us, the Oerlikon Barmag of today.

A strong entrepreneurial spirit and boundless creativity have shaped us. We are proud of our entire global workforce. The creative utilization of its experience and knowledge potential in close collaboration with high-performance partners, suppliers and services providers is the key to our sustained success. We focus on close cooperation with our customers, offering them market-oriented innovations and services. These are based on interdisciplinary, team-oriented development work and high-quality production procedures.

In the future, we will continue to constantly question established processes and break down conventional procedures and ways of thinking. Because innovation starts with creativity. And we actively promote these with our multicultural and open corporate culture.

INDIA ITME 2022
11th India International Textile Machinery Exhibition

8th - 13th December 2022
India Exposition Mart, Knowledge Park II, Greater Noida

An enhancing B2B experience for Textile Machinery Technologists/Accessories and Component Manufacturers through RBSM, conducted by the Engineering Export Promotion Council concurrently with India ITME 2022

Experience a major pinnacle through strategically planned & aligned

- B2B Meetings**
- Pivoting Lead Generation**
- Catapulting the Highest Amount of Conversions**

With **International Business Delegations from**

Bangladesh	Botswana	Bhutan	Cambodia	China	Ethiopia	Egypt	Ghana	Iran	Israel
Indonesia	Kenya	Malaysia	Myanmar	Poland	Philippines	Sri Lanka	Thailand	Uzbekistan	Vietnam

and many more...

India ITME 2022 visitors will witness accelerating cutting-edge technology

Continued from Page 1 Col 6

footfall from Pan India but has done extensive promotion to attract foreign delegations from neighboring textile-producing countries as well as ensured to bring overseas delegations of textile-sourcing countries for felicitating business 2 business meetings for the visitors as well. All this while the society has remained true to its motive of "Promoting Trade through technology, with commitment, integrity & transparency of conduct".

India ITME 2022 will be an event to witness accelerating production-driven modern machinery, cutting-edge technology, Innovative product launches, critical trade MOU exchanges, value-creating trade business meet, knowledge-packed sessions on trending topics like circular economy, smart manufacturing, 360 degrees of sustainability & recycling to networking sessions of like minds for business relationship development & beyond. The 11th edition of India ITME will also be the event to look out for cultural bonding of textile nations across the globe.

India ITME Society has also created a unique platform to ease the interaction of the policy maker and policy beneficiary. The society acting as a catalyst for the growth of the Indian Textile & Engineering Industry during this 11th Edition has created a platform for the interaction of eminent Industry players through CEO Conclave on 10th December 2022 at 3.00 pm. The conclave will have representation from Overseas Delegates, Government Officials, and CEO & Managing Directors of top-notch Indian & International Textile & Textile Machinery companies to discuss short-term & long-term technology strategies for the sustainable growth of the Textile Industry in India.

The ITME 2022 will also be presenting the Technology Awards- "Appreciating the best in the industry". These prestigious awards are society's humble attempt to remain true to its industry label of being a torchbearer for the engineering sector in textiles. It will felicitate the vastly evolving textile engineering sector, the innovative researcher & the women power of 2022.

Apart from bringing futuristic technology enhancement to the show the society also realizes the importance of creating awareness of technology and the need for technical knowledge enlightenment which is why the society has crafted a series of enthralling topics in focused technological sessions for knowledge empowerment. The sessions will address real and practical solutions for the need of this very hour. The India ITME Society has created a different platform on each day of the event to bring enthralling knowledgeable topics to be addressed by the best of the best-renowned Speakers & Industry stalwarts.

> Circular Economy in the Indian Context session will throw light on all the elements of circular economy in the textile industry with a focus on the most appropriate and right way of introducing circularity in our industry. It will be presented by Mr. Thomas Gries, RWTH Aachen University, Germany, Mr. Uday Gill, Group Chief Strategy Officer, Indorama Ventures Limited, Indonesia, Mr. Prashant Agarwal, Co-Founder and JMD, WAZIR Advisors, Mr. Justin Kühn, Aachen University, Germany, Mr. Gurudas Aras, India consultant to the ITA group

> Innovate: Smart Manufacturing Conference focusing on the robotics and integration of technology for error-free development of systems leading to enhancement of production and reduction of waste generated will be completely touch-based by WTIN, UK

> Technical Symposium on 'Reduce-Reuse-Recycle: State of the Art' in Textile Sector by VJTI will address not just the recycling of finished products but recycling wherever possible of all the unutilized raw materials, utility & production parameters.

> Session Composites for the Energy Sector in India by Mr. PKC Bose, Global Sustainability Advocate, Dr.-Ing. Mohit Raina, Managing Director, Raina Industries Pvt. Ltd, Mr. Kumar Jois, Scientist, RWTH Aachen University (ITA), Germany, Prof Asim Tewari, Indian Institute of Technology Bombay, Dr. Rajalakshmi Natarajan, Former Senior Scientist and Head, Centre for Fuel Cell Technology, ARCI, IIT Madras, Ms. Gözdem Dittel, RWTH Aachen University, Germany will throw light on innovative techniques in this sector from the familiar solar energy

to hydro cells especially focusing on Indian market readiness and adaptability and road map for implementation.

> Customized Joining Technologies for Technical Textiles session will assist the attendees in understanding the technologies from a different perspective and thereby grabbing the opportunity by introducing the custom products to the niche markets. It will contain renowned speakers- Mr. Philip Huber, RWTH Aachen University, Germany, Dr.-Ing. Yves Simon Gloy, RWTH Aachen University, Germany, Mr. Antonio Braz dos Santos Costa, General Manager at CITEVE – Portuguese Technological Centre for Textile and Clothing Industries, Portugal.

India ITME Society jointly with EEPCC has organized B2B Meetings (RBSM) during INDIA ITME 2022. This Buyer-Seller Meet is a unique platform to connect major buyers with sellers of the textile engineering sector in order to facilitate textile engineering businesses in accessing global opportunities. This is one of kind initiative for the textile industry by India ITME Society & EEPCC. International buyer delegations from Bangladesh, Sri Lanka, Poland, Botswana, Ethiopia, Kenya,

Ghana, Egypt, Morocco, Indonesia, Malaysia, Myanmar, Vietnam, Philippines, Thailand, Cambodia, China, Uzbekistan, Turkey, Iran, Israel, Bhutan, South Africa, Tanzania, Zimbabwe, Fiji, Guatemala & Kyrgyzstan and many more countries primarily to assess their business prospects shall visit India ITME 2022. The strategically matched B2B meetings / RBSM are focused on resulting in the highest amount of conversions

We welcome all our international and domestic textile engineering manufacturers to this beautiful metro city of India-Noida, well connected to the capital city of India. Welcome to the land that is home to textiles and apparel since 4000 BC & is today grown to be the world's second-largest textile-producing industry. With India's exports of textiles and apparel expected to reach \$100 bn in the next 5 years, growing at a CAGR of 11%, this land is filled with promising new entrepreneurs eager to kick start their ventures and with age-old family business houses looking to further expand their business verticals. The land is a big home for ever-increasing demands for technology-

Session - Composites and Technical Textiles for the Energy and Building Sector in India				
Moderator	Dr. Asim Tewari, IIT Bombay			
	Topic		Speaker	
	Hydrogen Storage systems - Trends in Europe and India		Dr. Asim Tewari, IIT B	
	Role of Carbon in Fuel Cell Technology and Energy Conversion Devices		Dr. Rajalakshmi Natarajan, IIT Dharwad	
	Fibre based materials for future energy applications		Mr. Philipp Huber, RWTH Aachen, Germany	
	From fibres to component: What hydrogen storage technology have to do with textile technology?		Mr. Kumar Jois, RWTH Aachen, Germany	
	Composites & Technical textiles for Energy Efficient Building		Mr. Shantanu Bhat, RWTH Aachen, Germany	
	Multifunctional textile reinforced concrete structures for building applications		Ms. Gözdem Dittel, RWTH Aachen, Germany	
2 pm onwards	SAPPHIRE HALL			
	9.30 am onwards			
Technical Symposium on 'Reduce-Reuse-Recycle : State of the Art' in Textiles Sector, by VJTI Mumbai & Alumni Meet		To Register for this session kindly contact Mr. Aniket Gajbhiye on akgajbhiye@tx.vjti.ac.in		

12-12-2022		CRYSTAL HALL		 Scan QR Code to register
Session - Circularity in Apparel Processing and Textile Manufacturing				
Moderator	Mr. Prashant Agrawal, Wazir Advisors			
2 pm onwards	Topic		Speaker	
	Circularity in Apparel: Model for Future		Mr. Prashant Agrawal, Wazir Advisors	
	Learnings from the transformation in the Apparel & Textile Industry in Portugal		Mr. Braz Costa, Citeve, Portugal	
	Sustainability in Cotton		Mr. Justin Kühn, RWTH Aachen, Germany	
	Panel Discussion on Circularity in Apparel and Textile Manufacturing		Mr. Gurudas Aras, Strategic Consultant	
			Mr. Ranjit Sasi, India Head, Reverse Resources	
			Ms. Khusbhu Maheshwari, Fashion for Good*	
		Mr. Anurag Gupta, MD, Usha Yarns*

Opportunities galore for entire textile and engineering industry

Continued from Page 3 Col 6

driven needs of quality textile machinery and accessories and India ITME society is here to create the best gateway between the technology bearer and the user.

The exhibition might be taking place in the northern sector of India but the vast promotions and trade shows in the textile hubs will bring in valued customers from across all the regions of India starting from the textile hubs to the niche textile business centers.

The Asian belt of textile-producing nations will also be present looking for their technology solutions as well as will contain a delegation looking for sourcing partnership development for building a strong value chain with Indian textile producers.

India ITME 2022 is the only event in India that brings together 73 Countries & 97 domestic regions in Pan India - Tradition to Trend under one roof. We have created travel assistance through free shuttle bus scheduled bus services for all the registered visitors and exhibitors all the details are available on the website and app for the convenience of travel there is also a golf cart paid service and Nasa Car Parking Space for Visitors & Exhibitors.

The society has ensured the creation of a state-of-the-art facility at the event and made available all the amenities from business facilitating amenities like Seminar & B2B hall, Information Counters/Help Desk, Meeting Room, Media Lounge, VIP Lounge, Visitor Lounge, ITME Square, Business

Center to the convenience amenity like Left Luggage Counter, First AID, Forex exchange, Food Court & Cafeteria to Special Facilities for Physically Challenged (On Request) to the hospitality amenities like Restroom Facilities with Constant Sanitization, Hand Wash and Services with Dedicated Bins for Disposal, housekeeping to the office stationary amenity like Xerox Machine, Power Bank Dispenser (Paid Services) to the entertainment facility like Selfie Point & attractions The event has everything covered.

The society has curated a single event for the textile producers wherein they would not only meet the array of machinery suppliers but a platform that strives to assimilate & disseminate more knowledge & power through futuristic Technology topics.

All in all a bundle packaged through different conference sessions and planned B2B meetings on each day of the event for visiting foreign delegates + business visitors.

The event days will surely bring more and more on the platter for the exhibitors, foreign delegates, visitors, and knowledge seekers and also for the knowledge bearers of universities of textiles. This event's success is all possible with the support of the Ministry of Textiles -Govt of India, Department of Heavy Industries - Govt of India, Ministry

of Micro, Small & Medium Enterprises - Govt of India, Make in India - Department for Promotion of Industry and Internal Trade - Govt of India & National Small Industries Corporation all our associations, foreign and national exhibitors and visitors, embassy partners, and the dedicated India ITME staff and supportive vendors.

India ITME 2022 will mark the beginning of the era of the physical meet from virtual sessions. The sore sight of hoardings, beautifully crafted pavilions, badges around the neck, sounds of running machines and most important the cheerfully decked-up people all around will be a moment of pride and enthusiasm. It has been a few years of hardships and losses but the entire Industry has grown stronger, more determined, and focused.

There is only growth ahead for the entire textile & engineering industry and we are sure the exhibition will turn out to be the event of centuries and mark a new beginning for exhilarating the growth of textiles and textile engineering for the entire globe.

I welcome you all to India ITME 2022 with high hopes of seeing brighter developments and growing textile engineering industry for India & the globe. I am here to be with you all with all my team members to make this exhibition a great success.

RIETER

Make the Difference

Optimizing Draw Frame Performance

Draw frames are the cornerstones of every short-staple fiber spinning process. This also makes them subject to technical wear and tear. Rieter's draw frame maintenance concept helps achieve outstanding sliver evenness, maximize productivity, save on maintenance cost and reduce unplanned downtime.

www.rieter.com

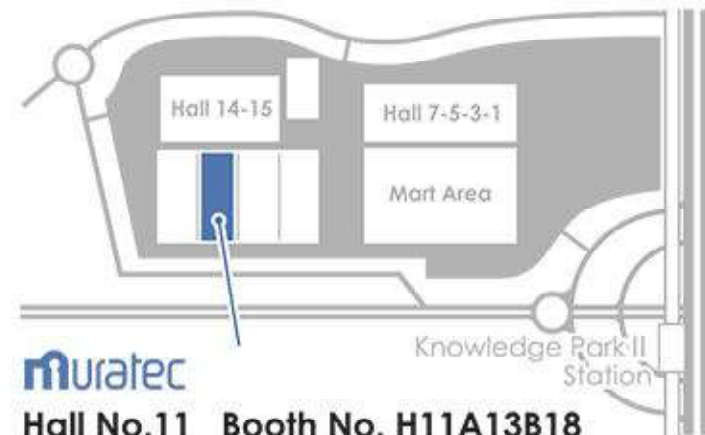

Looking forward to seeing you.
